This is a relatively new association that specializes in producing sawn timber and manufactured products utilizing the non-threatened species Rhodesian Rosewood, Teak and Mahogany. Whilst several members have their own concessions, logs are also outsourced to concession owners operating under Forestry Department licenses. All materials purchased are logged and managed sustainably in line with the current Zambian Forestry Act of 1999.

#### **Objectives:**

- To develop their business to a level where they can process timber to internationally acceptable standards;
- To establish a joint initiative this will lead to the implementation of verifiable forest certification and chain of custody.

**Source of Funding:** Donor support

#### **Membership:**

Members of LUMAZ can be contacted directly:
